

Cware Integra is an intelligent video management software that enables management and control of live and recorded video, integrating analog and digital video components. Cware Integra's all-in-one architecture is based on one standard PC serving as the recording server, system and client.

Through the intuitive user interface, Cware Integra software provides a comprehensive, effective, user friendly and flexible management of small and medium sized video surveillance. Easy to install, configure and maintain, Cware Integra ensures all levels of security personnel and allows fast detection of potential threats and emergency event management.

The open architecture enables quick and easy integration of multi-vendor equipment. Users are able to leverage a high return on investment, upgrade their video security systems as their requirements evolve and above all, work with their preferred vendors.

Cware Integra allows users to build the most flexible and cost-effective video management that suits to their needs.

### Features

- ▶ Open Architecture - Multi-Vendor Codec and PTZ Camera Support
- ▶ Friendly and intuitive User Interface
- ▶ Logical Channel Grouping
- ▶ Advanced Alarm Management with Alarm Stacking
- ▶ DVR and NVR Operation
- ▶ Manual, Scheduled and Event Recording
- ▶ Time & Date / Video Content Analysis Search
- ▶ Half/Full Duplex Audio
- ▶ Virtual Matrix Switching
- ▶ Hardware Decoders Support

As a value-added distributor, Controlware helps you from the development phase through consultancy to the implementation and support.

These essential services are supported by experts in our International Technical Assistance Centers (CTAC) 24 hours a day, 7 days a week.

**Technical Specifications**

- Video:** Analogue (via capture card) and IP-Transmission;  
MJPEG, MPEG-2, MPEG-4, H.263, H.264  
Resolution up to 4CIF; 1fps – 30fps;  
Bandwith managed from 9.6Kbps – 8Mbps per channel
- Audio:** Full Duplex; Half Duplex; Press to Talk / Permanent connection
- Display:** User configurable Split Screen Modes:  
1 - One video output  
4 - 2x2 video outputs  
9 - 3x3 video outputs  
16 - 4x4 video outputs  
1/7 – 1 large and 7 small  
2/8 – 2 large and 8 small  
Save Recall preset layouts with pre-configured connections
- Recording:** Manual, Event & Scheduled Recording  
Client Recording
- Playback:** Single, Multiple or Synchronized channel playback  
Normal, X2, X4, Reverse, frame by frame playback  
Search: Time & Date; Video Content Analysis  
Export: Native or AVI
- Export:** AVI - To be played with any windows media player, with no software installation as a prerequisite.  
Native - Original Recorded Stream to be played with a stand alone player application with no software installation as a prerequisite.
- Alarm Management:** Configurable Trigger  
User Definable Scheduled Alarm Rule Management
- User Management:** User Database with Login, Password and Contact Details;  
User Profiles with Configurable Permissions and Access Settings
- Logging & Reporting:** System Log of Integral Self Diagnostic Alarm and Event Log;  
Audit Trail of User Login; Logout and Archiving functions;  
Integral Reporting Application with advanced sorting filters
